CARLSTADT HARNESS SHOP

Fred F. Rowatt, Prop.

Carlstadt Booming

The only manufacturer in Carlstadt is the Carlstadt Harness Maker. Your order for an oak framed hand made harness will receive my personal attention. I will make any style harness you may want, at reasonable prices. Drop into my manufacturing shop and let me know your needs. I am always pleased to have settlers call and get acquainted. I was born and raised in a harness atmosphere, am a harness maker by choice and will give your order my personal attention. When in town visit Carlstadt's first industrial workshop. Harness and shoe repairs promptly and neatly done. See my line of Horse Blankets and Harness extras.

We remain Yours for Business,

CARLSTADT HARNESS SHOP

Mr. Martin Feiring of Minnesota arrived here Saturday, the 13th with his bride, and has started homesteading as a respectable married man on his homestead 30 miles north of Carlstadt. He fitted out with our merchants.

Herman Ebert returned Thursday Jan. 11th and says jobs are at a premium in Calgary and vicinity. He is simply bursting with men out of work this winter. Herman left Friday to resume homesteading on his homestead 25 miles north east of Carlstadt.

SPECIAL SALE On Horse Blankets

During the coming week we will sell for cash our stock of Horse Blankets at prices never before quoted in Carlstadt. Before purchasing your Barb Wire or Fencing, give us a call and get prices.

A. J. DRUMMOND & CO. Hardware Merchants.

Why not Buy Best

Finlay & Co. can supply you with anything in the building line, from a lath to a log. It is not the cheaper material that is the best, but the best material is always the cheapest for the homesteader, as he needs the lumber for years, not for days. We handle only the best spruce, fir, hemlock and cedar lumber. We wish our customers a Happy and Prosperous New Year and thank one and all for their patronage the past year.

FINLAY & CO.

Lumber and Builders' Supplies

C. H. Wagner, Manager.

I have a large shipment of Dr. Hess's Stock Food now on the way. Anyone expecting to need tonic for horses, cows, pigs and hens will find in this line of stock food as good results as from any other in the market.—Rowatt, the Harness Maker.

Peter, the shoemaker, will fix up your shoe; so look sharp and bring them in on your next trip to town.

The show Monday night by the Twin City Quintette was very satisfactory and drew a large audience. G. C. Eichardt is a very clever magician, impersonator and comedian. The dance after the show was greatly enjoyed by all present.

Very pleasantly the chinook greeted the town and country folks alike Monday.

LOCAL NEWSNOTES

J. A. Boyd is enjoying a short vacation.

Rev. Bunn returned from Brooks Monday night.

Carl Nelson was in town from his home near Hoskin, Monday.

James Pease of the Peace Whip Co., Toronto, was calling on Carlstadt trade Monday.

Mr. Flavir, representing the Ames, Holden, McCready Co., was calling on his customers in Carlstadt last week.

Mr. John Boyd left Friday evening, Jan. 12, for a visit at the home of her parents in the western part of South Dakota. To say John is long-some does not begin to tell the story.

Mr. Zingley the contractor on H. R. Bean's new store building is pushing the work along these days, while we are getting milder weather.

H. L. Daville, representing O. Parsons & Son, leather merchants of Toronto, was calling on the trade in Carlstadt, Monday.

Wanted.—To hire three 4-horse teams for seeding and other farm work spring 1912.

N. H. AMERY.

Rev. Michelson paid his friends in Carlstadt a visit on Saturday and on Sunday held services at the home of John Carlson.

The stock paid Mr. and Mrs. Hans Jensen a visit last Friday and deposited with them a fine healthy-looking boy. Congratulations, Happy.

Geo. Gunderson returned from Calgary last Saturday eve.

Anton Hostland left for Swift Current on Tuesday, where he is to enter the employ of the C. P. R. as locomotive engineer.

Conrad Larson has been confined to his bed with a bad cold and sore throat.

School meeting was held at the school house Monday, for the election of a trustee. F. E. McDermid was elected. The other candidates were H. R. Bean and Mrs. Woollen.

Rev. C. F. Johnson, evangelist, had to go to Medicine Hat Saturday to get some dental work done, returning to Carlstadt early Sunday morning.

Born.—To Mr. and Mrs. Oscar Laavalde, a son, and to Mr. and Mrs. C. Engle, a daughter.

The new council will hold its first meeting tonight and it is expected that some important business will be transacted.

We want to thank all who have so kindly assisted us in the gathering of the local news. It is such cooperation as this that makes an interesting paper.

Many complaints are being made of petty stealing about town, there having been poultry and various other articles, including thermometers, stolen at various times. Some of these days, or nights, somebody is going to get caught in the act, and when they are caught we hope the law will take its course and they will receive just punishment. It is about time that the guilty parties had their just deserts.

At the regular meeting of the United Farmers of Alberta, held in the school house Friday evening, they heard a good talk on what might be acquired if the farmers used their united effort to go after and get legislation on better marketing and grading of grain. F. E. McDermid was chosen as delegate to the convention held this week, Jan. 17-18, at Edmonton. He left Monday night.

BASSANO is doing big things these days in the way of publicity, or at least the fellow who is responsible for the publicity no doubt thinks it is big, but where he is going to get off at, nobody knows. Some of the publicity is of a very doubtful character as regards permanent value in the way of advertising, and it seems a pity that so much energy should be wasted. The latest coup is the attempt to secure the big Johnson-Flynn fight for Bassano, and a purse of \$50,000 is offered the promoter of the fight, Jack Curley of Chicago, if he will bring off theistic win in Bassano. It is to laugh! How the little king to the west of us expects to raise fifty thousand plumb for such a purpose and how they expect to reap profit from such investment is a greater puzzle than the age of Ahm. But perhaps the editor of Progress is obtuse on these matters and not well versed in sports and their value as town builders, and he acknowledges that his education along that line has been sadly neglected. A reputation for any town built on such foundation it seems to us would be a doubtful quantity. However, if Bassano can stand it we will try to worry along the same old trail. It costs money to advertise, but in our humble opinion it is poor policy to buy high-priced advertising at a sacrifice of dignity and real solid merit. Bassano is a good town with numerous natural advantages and a promising future let her stand upon those.

MEDICINE HAT had a big fire last Saturday afternoon in which Kick's clothing store, Howson's wine and liquor house and the Palace barber shop burned. The Hatters are gratulating themselves with the thought that it might have been worse.

CHIEF OF POLICE MACKIE of Calgary has resigned, and another chief of police will have to be appointed by the council. He was a sincere and honest official but found the position too strenuous in a growing city like Calgary, where vice is a many-sided problem and difficult for any police force to cope with. In some cases Chief Mackie failed in an attempt to do his duty and had to submit to the jibes and jeers of the multitude. We don't blame him for handing in his resignation.

THE CANADIAN PACIFIC Railway irrigation Department will during the year 1912 spend \$5,500,000 on irrigation. A large amount of this appropriation will go to the section and immediate benefit Brooks and Tilley, for it is understood that the company will center a large portion of their operations at these two towns but all other towns along the line of railroad running through the irrigation belt will be benefited. This is only the beginning of a new era for these towns whose growth and prosperity will culminate with the settling up of the irrigation belt by farmers. To those abroad who are thinking of coming to this part of Alberta we say you had better come now and get in the game.

Carlstadt has no regularly organized hockey club, but it has a few hockey enthusiasts who would be glad to have a good exhibition game on the rink here if any outside clubs can be induced to come and give a battle. We presume such an exhibition would draw a very good attendance if properly advertised. Among those in Carlstadt who have played the game are Dr. McEwen, J. B. Howell, Owen Wood, Elmer England, Anton Hostland and D. Jerrold. These gentleman play practice games occasionally at the rink.

N. McKechnie, manager of the Merchants bank, returned from his vacation last Saturday after a month's rest. Mr. Wiegert, filled Mr. McKechnie's place in the bank during the month in a very acceptable manner.

The people of Brooks were sorry to hear that a former resident had got into trouble from shooting antelope.

There are a large number of houses placed in books that do not advertise in the Banner, depending on the reputation. In sharp competition it is the man who advertises and backs up his advertising with good goods and low prices that gets the business.

We are glad to see our general drayman Mr. Oliver Frisley back in Carlstadt again. Mr. Frisley besides taking in several of the larger cities of the east spent two weeks with his parents at Whitehall. Wis. He is now on his homestead.

J. B. Goehring is another one of the prosperous farmers who concluded that he could not very well keep house without the weekly visits of Progress and came in Saturday, substituted and paid his dollar.

Mr. and Mrs. Andy Hagaebom of Tide Lake P. O. were in town this week and appeared to have enjoyed the twenty-two mile drive.

Mrs. C Cutworth, Mr. and Mrs. W. Wie, G. Brain, J. B. Gray, O. Karslein, Geo. Gunderson, August Salverson, Verna Taylor, Chas. Godard, Lewis Fury and a number from the Dutch Colony were in town this week and report the trials as being very heavy; in some places the drifts being as high as the horses back.

Mr. Jno. Coffin of Hoskin P. O. was in town on business this week.

Miss Lydia Perry, who has been in charge of Viking school, is at present in town, the school being temporarily closed.

Congratulations and best wishes are being extended to one of our well known bachelors, who expects shortly to gain the benefits. More soon.

Dr. Agnew, dentist, of Medicine Hat is in town this week.

There will be a dance at the Ball restaurant, old pool room, tomorrow, Friday night.

Progress Prose Poems

By Kalgoos

Johnny Jones he went to skate and he said the sport was great, but he fell upon his pate, and he hollered good and loud, but a hero Johnny was and he saw no earthly cause for him to make too long a pause from his skating in that crowd, so he skated once again, and forgot about his pain, and he felt a little vain at his skating curleces, and it wasn't long, you bet, till a fall did Johnny get that his very brains were loose, and he left to howard god; but when next the ice is fine Johnny will be found in lineand won't ever growl or whine from a flop upon the ice, and I think in life's mud race Johnny sure will have a place and will win upon his face, if he hasn't got the price, for I've noticed those who try more than once will by and by hit the combination, ay, will triumph spite of all his grumes; it may be hard to do thy part with many a grimes many a smart, may take labor may take art, but you can win like Johnny Jones.

George Beattie

Carlstadt

Bega is thank the Farmers of this district for the liberal patronage bestowed during the past season and hopes to again receive their orders, which will have prompt attention. Lines for 1912 include all McCormick machinery, world famous Oliver Chilled Plows, all sizes, International Harvester, Gasoline Engines, 1 h. p. to 45 h. p., Fanning Mills, Picklers, etc. The New McCormick Drills are the hit of the season four sizes, 16, 18, 20, 22 disc. I handle the "King of Wagons," the "Weber." Agent for J. I. Case Engines and Threshers. Repairs carried for all lines. Agent for Hudson Bay and C. P. R. lands.

Oliver Frisley, who has just returned from Wisconsin and various points in Minnesota, says that Alberta weather is better than the western variety in the United States. The air is much drier there and there is much more suffering from cold. That is the same story the editor of this paper has been telling and he much prefers Alberta weather to the kind he was accustomed to in Southern Indiana.

Yours truly,
Oliver Frisley.

The hockey game between Strathmore and Brooks; the show given by the Twin City Quintette, in which C. Eckhardt opened the supreme attraction; and the dance after the show made up a busy night of revelry in Brooks, Tuesday night. It isn't often that Brooks spreads herself like this but when she does start out for a good time she has it.

Rev. F. J. Johnson had intended to skip his series of meetings at the Methodist church Sunday night, but was persuaded to stay two more nights and had services Monday and Tuesday nights. Though the apparent results of this series of meetings was not what the church desired, yet it is conceded that much good was done in a raw-headed public conscience on matters pertaining to the Christian life.

The milder weather has made a great change in the town. One can step into every store window. King Frost has had all the store windows well coated for three weeks but let up when the chinook struck town Monday.

For hand made harness made from pure oak leather, See Rowatt the Carlstadt harness maker.

Since the cold weather has let up to a considerable degree, the home-steaders and farmers are coming into town and it is taking on a new life.

By the time spring arrives in earnest there will be a real awakening that will astonish the natives.

Mrs. N. H. Amund returned Wednesday, to Carlstadt from a two month's visit to Oregon and Washington.

Advertisers are asked to be prompt in furnishing copy, and if an advertisement is worth anything to them it will also be paid promptly. This is the system on which we do business.

From the lowest to the highest, in training in agriculture and in the duties of citizenship and British and Canadian systems of government will be given. In the elementary grades, history will form the basis of

OUR EDUCATIONAL SYSTEM

The work or the Provincial Department of Education which is under the direction of Hon. C. H. Mitchell comes in for the following analysis at the hands of the chairman:

Unexampled in the history of Canada, I suppose, has been the demand for new educational facilities for the formation of new school districts in cities, towns, villages and in the rural sections, which has characterized the year 1911 in Alberta. In the creation of 282 new school districts during the year, 1911, previous records have been broken. Scattered throughout the Province, close to the railways and in remote districts which a year ago were unpopulated, the new districts are to be found. In the wake of the farming pioneer has followed the school trustee, and the school inspector, and a population has grown denser with the railroad facilities, large rural school areas have been reduced, and urban schools have sprung up. The year has been the busiest that the department of education has yet known.

Since September, 1905, when Alberta became a province, 1240 new school districts have been created, bringing the total to 1784 at the end of 1911. Each year has shown an increase. During the four months September to December, 1905, forty new school districts were formed; in 1906, the number was 144; in 1907, 156; in 1908, 168; in 1909, 108; in 1910, 251. These figures in themselves do not give an adequate idea of the extent of the development.

In many instances old school districts which covered a wide area have been split up into smaller ones. Thus, while two districts have been created, the actual increase, but one, in greater Edmonton, two school districts have given place to one, with the amalgamation of the twin cities.

Radical changes in the curriculum of the schools came into effect at the beginning of the week when the first term of 1912 opened. The old standard gave way to the new grade system. Eight grades each the average child in a twelve month course are formed for the public schools and four for the high schools. The change comes into effect immediately. Little difficulty will be found under the old system will be allowed to continue under this system to the end.

Two of the most important additions to the school curriculum to be inaugurated by the department of education, are the subjects of agriculture and civics. In a doubtful way these subjects have been taught in the past, but in 1912 they will be given systematic study.

From the lowest to the highest, in training in agriculture and in the duties of citizenship and British and Canadian systems of government will be given. In the elementary grades, history will form the basis of

FREE SEED DISTRIBUTION

By instructions of the Hon. Minister of Agriculture, a distribution will be made during the coming winter and spring of superior sorts of grain and potatoes to Canadian farmers. The samples for general distribution will consist of spring wheat (5 lbs.), white oats (4 lbs.), barley (5 lbs.), and field peas (3 lbs.). These will be sent out from Ottawa. A distribution of potatoes (3 lbs. samples) will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the Provinces of Ontario and Quebec. All samples will be sent free by mail.

Applicants should give particularly in regard to the soil on their farms; and should also state what varieties they have already tested and in what way these have been found unsatisfactory, so that a promising sort for their conditions may be sent.

Each application must be separate and must be signed by the applicant. Only one sample can be sent to each farm. Applications on any kind of printed or written form cannot be accepted.

As the supply of seed is limited, farmers are advised to apply early to avoid possible disappointment. No applications can be accepted after Feb. 15.

All applications for grain and applications from the Provinces of Ontario and Quebec for potatoes should be addressed to the Dominion Cerealist, Central Experimental Farm, Ottawa. Such applications require no postage.

Applications for potatoes, from farmers in any other province should be addressed (postage prepaid) to the nearest Branch Experimental Farm.

J. H. Griswold,

Director, Dominion Experimental Farms.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

"I am completely—suffered two years with frequent attacks, my health was very poor, and I had continual backache which was simply agonizing. I could stand on my feet long enough to cook a meal, but when I sat down without my back support, I would have such dragging sensations that I could hardly bear it. I had numbness in each side, could not sleep at night, and I was completely exhausted. On a doctor's advice I took Lydia E. Pinkham's Vegetable Compound, and am enjoying good health. It has now been three years since I have had an ache or pain since I had my own work, washing and everything else to do. I think my medicine is grand and I praise it to all my neighbors. If you want to know more about it, you may publish it!" —Mrs. OLIVE WOODS, Morton's Gap, Kentucky.

Weakness or debility, or physical weakness or debility. If you have backache don't neglect it. To cure it, you must find the root of the trouble. Nothing we can do is so sure as Lydia E. Pinkham's Vegetable Compound.

Write to Mrs. Pinkham, 15 Lynn Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

She Didn't

A Baltimore lawyer had an office which was given to telling his clients what he thought of their chief. The lawyer found it necessary to dismiss him, but told him to keep him from a single fault in the future, the wily old lawyer did so on his departure.

"Willie, you must never hear anything that is said in the office," he said. "If you do, you will get into a deaf ear to conversation that does not include you."

"What do you mean?" he asked that the stenographer learned the same lesson, in passing, so, turning to her and saying,

"Miss Brown did you hear what I said to Willie?"

The stenographer returned promptly.

In the treatment of summer complaint the most effective remedy that can be used is Dr. J. D. Kellogg's preparation and many people employ it as preference to other preparations and its sedative and curative qualities are beyond question. It has been a thousand—can attest its superior qualities in overcoming dysentery and kidney complaints.

"How's your brother?"

"Not very well. He was playing with another little boy, seeing who could leap the highest out of the window, and he was . . ."

The Silent Father

"I'll bet that man is the father of six or seven children."

"Because, if he had less than three he'd be bragging about them."

Your hands won't get chapped this winter if you use SNAP.

Milking, scouring the separator and cleaning up the stable, and getting the horses in and out of the stalls.

Course soap and hard rubbing only chap the skin. SNAP cleans and softens the skin. It is a non-lubricant—gets out the dirt and oil, hard rubbing out, and is soothing and healing to the skin.

120 g. a can.

Not Too Old Yet.

Professors—"Young man, I am very sorry to tell you that I have smoked a share of tobacco in my life."

Student (smoking cigar)—"Well, sir, you're right. I have smoked a share of Cato-leaved Greek tobacco in the eight of you, know."

Edmonton possesses more diminutive railways than any other country for the reason that there are so few that find one or two locomotives sufficient for their successful operation.

Advice is cheap unless one goes to an attorney for it.

W. N. U. No. 861

THE CALGARY SHOPS
Improve Railways Shops to be Built
by C.P.R. to Venues Work on
Western Division.

Canadian Pacific Railway officials state that now that the contract for the building of the new rail yards has been let a statement will soon be made as to just what will constitute the exact location of the yards. In the course, known that the shops will occupy an area of 120 acres of land, and will consist of a roundhouse, turntable, engine house, coaling plant, and other than the shops will resemble those of Company A, which has not yet been decided upon. It is expected that the buildings to be erected will be at least twenty buildings including freight car, passenger car, and motive shop, will slope it is said, cover six acres of land.

The new shops will be installed in the new shops will be of the very latest design and the tool equipment will be most complete.

The Angus shops at Montreal are equipped to provide the repairs required to rolling stock and rolling lines east of Winnipeg, including some 500 locomotives, rolling stock and rolling lines.

They are now being repaired and will have plenty of work to do is evidenced from the fact that the Canadian Pacific has decided to repair to complete overhaul.

The rolling stock at least once a year. The cost of repairing the rolling stock may always be in the best possible shape.

The Angus shops at Montreal and the shops at Winnipeg were sufficient to handle the work required, but the amount has increased so greatly within the last few years, that the Canadian Pacific has decided to add to its strength.

The following table shows the additions made to the C.P.R. equipment since 1886:

Locomotives	1886	1915
Locomotives	372	1819
Passenger cars	262	1563
Freight cars and colonial and baggage cars	304	1567
First Class dining and second class dining cars	47	511
Parlor cars and restaurant cars	27	63
Freight cars and cattle cars	5,253	50,863

Now I CAN SAY
I AM CURED

AFTER TAKING GIN PILLS

Bridgewater, N. S.—For twenty years, I have been troubled with Kidney and Bladder Troubles. I have consulted many doctors but found little relief. They have given up all hope of making me well again.

Just think of it! Four boxes of Gin Pills cured Mr. Prather and he had suffered for twenty years and he had been treated by doctors and dentists.

BEST CURE FOR SKIN BORES

is Zam-Buk.

An illustration of the way in which Zam-Buk cures even the most serious and chronic skin diseases, and its use and source is provided by Mr. H. Barker, of Glencairn, Ont. He says:

"The best remedy I have ever seen to remedy could cure so quickly, and at the same time so effectively, is Zam-Buk."

"My face became covered with blisters of rash, which itched and irritated me more than torture, and which discharged freely and began to spread. I first tried one thing and another, but nothing would do me any good, and the eruption got worse and worse. The doctor was just covered with running sores."

"Apart from the pain (which was very great), the most terrible sight was that I was not fit to go out. This was my state when some one advised me to try Zam-Buk. It was a new supply, and marvellous as it was, I used within half an hour a mouthful of it, and the soreness was gone. I was so amazed that I have told the facts to several persons, and I have to say that they all have had the experience for the benefit of other sufferers."

Zam-Buk is purely herbal in composition, and is the ideal balm for skin eruptions. It is a safe and gentle skin ointment; no acids or coarse ointments are so dangerous. Cold, dampings are a sure cure for cold, dampings, bites of insects, bites of blood-sucking verminose parasites, scabs, sores, ringworm, inflamed skin, burns, scalds, cuts, burns, bruises and skin irritations generally. All druggists and chemists will supply you at a nominal price. Refuse inferior substitutes.

The man who wears a cold-killer, and the woman who paints, fool no one but themselves.

Its Virtues Cannot Be Described
No one can explain the subtle power that Zam-Buk has over skin eruptions. The originator was himself surprised by the wonderful qualities that it possessed. The Doctor is the benefactor of this wonderful Oil. Zam-Buk is every bit as good as a household medicine every where.

In French, Switzerland, the shepherd girls wear men's clothes.

The man who wears a Zam-Buk in this section of the country that is "nowhere else" need not, and will not, be embarrassed by skin eruptions. Many years ago he pronounced it a real wonder, and he has since recommended it to many others. He has written to me to encourage me to continue to be a conscientious claimant for Zam-Buk to be a success.

Hastily written, manufactured by F. J. Cherry & Co., Ltd., 100, King Street, London, Eng.

This is a truly wonderful Oil. Zam-Buk is every bit as good as a household medicine every where.

It is a true fact that Zam-Buk is a safe and effective remedy for skin eruptions.

Take half a Family Pill for constipation.

If you buy a friend a drink, you are generous. If it return to you, you are generous. If you buy a friend a drink, both let it go at that, your both un-common sensible.

Proof Positive
Gloria—I thought your page was really funny. I am a widow.

Editor—So it is. What the matter?

Gloria—I made a speech at the dinner last night, and you didn't print it up.

Editor—Well, what further proof do you want?

CHEW DIXIE TOBACCO

Avenging Water

The Duke of Wellington, who had a taste for Napoleon, had him killed, applied to David, the artist, who had painted Napoleon's portrait, requesting him to paint him himself. "Sir," replied David, "I paint only historical characters."

Lady (to trumpet)—"I have some left, but I don't know if it's good for you?"

You?—"Are you married?" "No,

I'm not, ma'am, and the only bit of good luck I ever had."

Mack—I understand that Van Dyke has been to see you.

Wife—Yes; he made himself unpopular because he paid his debts instead of his social obligations.

DESPATCHING BY TELEPHONE

C.P.R. JUST NOW Leads the World in Number of Miles Traveled with Telephone Despatching Circuits.

"Since the system was installed, it has worked perfectly," said a Canadian official, "and we are now in a position to respond to a query regarding a rumor that had spread that the C.P.R. was using a system of despatching trains by telephone. There was a report circulated among the railwaymen that the manager of Telegraphs, 'that the C.P.R. was considering going back to the old method of despatching trains by telephone.'

"Mr. W. J. Camp, electrical engineer of the C.P.R., was asked yesterday if the system the C.P.R. was using was the same as the new system. All one has to do," said Mr. Camp, "is understand the principles of the telephone despatching system, in take cognizance of the miles traveled in circuits installed each year by the Company."

"This year stated Mr. Camp, the C.P.R. will travel 1,000 miles with the new system, but 4,000 miles of new circuits. The approximate number of miles of circuit installed each year by the C.P.R. is conservatively estimated at one hundred thousand miles."

"This was the first factory in France. It was a success at the start, and the company has now expanded rapidly, but it was not until nearly a century later that such success was introduced into England, and the first telephone system was established in Paris and Lyons.

Now, more than 100 years' installations have been made by the C.P.R. and will probably take place on the line West of Fort William.

Mr. Camp added that the C.P.R.'s installations have been made by the C.P.R. and will probably take place on the line West of Fort William.

Mr. Camp added that the C.P.R.'s installations have been made by the C.P.R. and will probably take place on the line West of Fort William.

Farmers Union of Alberta

The farmers belonging to the Association of Alberta met in the school house on Friday afternoon for the purpose of electing a delegate and listening to Mr. Glenbank a farmer who lives near Cluny. He, even though a farmer, proves himself to be a very interesting speaker. He said that when we come to the country that the papers call us very "desirable citizens," and that if we are very desirable we ought to be able to keep up an organization for the farmers. He cited the bad carriers of Chicago before they were organized, how they worked for small wages and long hours, and when anyone tried to organize them they would be told that it was impossible to organize these "dirty Irish, Dutch and Swedes," but now that they are organized these "dirty Irish" march in the parades with their stove pipe hats and swallow tailed coats and feel just as important as the bank president or any one else, and that their work was just as important. Since being organized they get 40 cents an hour and eight hours for a day's work. And can't these "desirable citizens" of Alberta form an organization and get what they want just as well as the bad carriers of Chicago?

The farmers are represented at the legislatures by their enemies. Did anyone ever hear of any other body of men sending their enemies to re-

present them and make their laws. He answered many questions asked by the members present in a very satisfactory manner, and the best part was the enthusiasm that he awakened, thinking we will feel better off when we derive from the farmer all the help we can get. The pleasure of hearing him again soon. There will probably be some organizations of the farmers in the north country soon. There will be most likely at least two societies organized north of Carlstadt soon.

There was one delegate chosen to represent this Union at Edmonton at the provincial meeting. The members expect that if Mr. McDermid goes, he will not remember all that is said at the Association that he will be able to make up enough to complete it. So they will get a good report anyway.

The Union decided to meet on Tuesday, Jan. 28, at 7:30 p.m.

Barn Burned

J. W. Wise of Tide Lake had his barn and contents burned Tuesday morning, including twelve hundred bushels of wheat, a sow and five pigs and a calf. Mr. Wise was on his way to Carlstadt when the fire took place. His house and barn and contents were insured. The barn was a new one, 40x60 in size. He will probably rebuild at once.

The Old RELIABLE PIONEER STORE

We have a few articles of Winter Goods left which we will sell at 10 per cent off. Fresh Groceries just arrived. Spring Goods are arriving.

Real Estate in the Pulpit

The Trade Gazette, issued by the Western Canada Publishing Co., Calgary, takes exception to the action of a Calgary clergyman who from the pulpit condemned Western real estate methods, and the issue of January 12th contains an interesting article on this subject.

The high prices prevailing in the west are the subject of another interesting article, "The Future of Alberta," the "Telephone System" and the formation of a Merchant's Protective Association are also dealt with. These articles, along with a big grit of trade information, make this issue one of unusual interest.

Copies may be had from the office of publication, Calgary.

School Meeting

The school meeting was held in the north room of the school house Monday. Mr. Ben was appointed chairman in the absence of the regular chairman.

The board was somewhat handicapped by not having the books returned by the auditor, and on motion it was decided to have a meeting soon to let the public look over the books and tell their troubles.

The meetings was very interesting in that every one talked plainly and to the point on any subject brought up.

The nominees saw what was in store for them one year hence and they all resigned, but three of the very newest.

Here's hoping that the voters will have more mercy in 1918 when the present board give their report and that the meantime they will bring their grievances to the board, so the board will know what is wanted and the board will do their best to satisfy the most particular. And if there are any grievances regarding the teacher tell the board, the teacher don't have any map. What would you do in his place?

CARD OF THANKS

This is to thank the voters of Carlstadt School District for electing me for school trustee.

F. E. McDermid.
